Let's download a program from a computer

Now that you know about Edison and EdBlocks, we can use EdBlocks to tell Edison what to do.
To do this, we need to download a program to Edison.

This time, we are going to load a program that has already been made.
Once you know how to download a program, you can start to make your own programs.

Program Edison

Step 1: Open the EdBlocks app
Go to www.edblocksapp.com
in Chrome, Edge, or Opera.

**Step 2: Select 'Menu'**
Click on the menu button.

☰ Menu ▾

Step 3: Select 'Load Demos'
Click on Load Demos and select
the program called 'Test_Program.'

📂 Load Demos

Step 4: Plug Edison in
Connect Edison to the computer
with the USB.

Step 5: Program Edison
Click on 'Program Edison.' (top right corner)

▶ Program Edison

Step 6: Click connect
Select Edison V3 from the popup box and click
'connect.' Edison will beep when the program
has downloaded.

edblocksapp.com wants to

Edison V3 – Paired

?   Connect   Cancel

Step 7: Success
Once downloaded you will hear Edison play
a success sound, now you can disconnect
Edison from the USB port and press the
triangle button to run the program.
