FAQs about our pricing

Do you offer educator discounts?

Edison robots are designed for the classroom – and so is our pricing. Our educator discounts are pre-built into our pricing in the form of bundle-packs and bulk discounts.

About bundle packs

Designed for schools, libraries, makerspaces and clubs, our bundles offer Edison products in quantities that make sense for educational spaces. By bundling together products, we can reduce the cost per product in each bundle. That is why a single Edison robot is $59 USD, however, in a class pack of 30 robots, each unit is discounted to $39.96 USD.

This bundle discounting is automatically applied to orders placed through our website and in the prices listed on the quotes we provide.

About bulk discounts

We understand that your needs may not always come in nice round numbers, which is why we honour bulk discounts for lone products made in the same order as larger bundles.

If you buy single items with any bundles, you'll pay the bundle price for all. For instance, in a pack of 30 robots at $39.96 each (originally $59 each), buying 31 robots means you'll pay $39.96 each. An order of 31 robots will be calculated using the discounted per unit price for the class 30 pack for all robots: 31 robots x $39.96 USD per robot = $1,238.76 USD.

If you mix different bundles, you'll pay the lowest price per item. For example, a three-pack costs $49.66 each, but in the 30-robot pack at $39.96 each, buying 33 robots means you'll pay $39.96 each. An order of 33 robots will be calculated using the discounted per unit price for the class 30 pack for all robots: 33 robots x $39.96 USD per robot = $1,318.68 USD.

This bulk discounting is automatically applied to orders placed through our website and in the prices listed on the quotes we provide.

What about shipping and fees?

The shipping cost and estimated delivery time for your order depend on your location, order size, and how you place your order. Additional fees, like local government import duties, may apply. For more details, please visit our website at - https://meetedison.com/edison-robot-support/shipping-times/
